

Backed By 50 Years Of Experience By

**VYARA®**

FreeForm is a design-led brand specializing in cast-on-site surface systems.

FreeForm is backed by Vyara Tiles Limited, one of India's most trusted names in surface and concrete innovation, with a legacy spanning over five decades.

# Why Freeform?

## Expertly Made

Built to last for Indian conditions. Provide industrial-grade consistency and dependable on-site performance. Tested to IS and EN standards for strength, durability, slip, UV, and stain resistance.

## Beautifully Lived

Durable materials that age naturally, with low maintenance and local technical support. GreenPro-certified, low/no-VOC, solvent-free systems support healthier spaces.

## Endlessly Bespoke

FreeForm gives architects and designers the tools and freedom to create cohesive, high-performance spaces, such that design can be with a concept, not a fixed product, and a seamless material language carries across the site's surfaces.

# Our Products

# Terrazzo

A modern reinvention of an ancient flooring technique

## Cementitious Terrazzo

Delivers a natural, organic feel. Suitable for interior and exterior use. Available in textured and vertical applications. Crack control is achieved through joints, mesh, and disciplined curing.

[Explore The Full Range](#)

## Epoxy Terrazzo

Ideal for seamless, large-scale sites. Enables faster installation. Offers maximum durability under heavy wear. Supports bold colours with excellent resistance to stains and chemicals.

[Explore The Full Range](#)

# Microcement

World-class textures and colours for floors and walls for interiors and exteriors

## Microcement Wall

Note: Finish options range from silk-matte refined to rustic/antique with aggregates delivered fast and tailored to the project.

# Stonecrete & Pebblewash

Bringing the authenticity of the outdoors into built spaces

## Stonecrete

Washed/exposed cementitious walls.

[Explore The Full Range](#)

## Pebblewash

Washed exterior flooring with exposed pebbles.

[Explore The Full Range](#)

# Calco

Acrylic-bound, stone-aggregate textures and mineral colours for interior and exterior walls.

An easy-to-apply formulation with a crack-free and durable finish.

Available in a wide range of aggregate and finishes, including Premia, SlateStone, Scratch and Putty.

[Explore The Full Range](#)

# Novasol

Resin-bound aggregate floors for seamless, free-draining exterior surfaces.

Best for pedestrian areas and light vehicular usage: swimming pool decks, garden walkways, terraces, courtyards, podiums and cycle paths.

Quick laying seamless panels with excellent UV resistance, skid resistance and low maintenance.
